File Type PDF Batsford Chess Openings 2 Library

This guide, intended for tournament players, addresses all the factors that indicate the correct choice of opening lead. The format challenges players to think for themselves before being presented with the solution.

'This romantic opening is a real rarity at top-level chess. Probably the greatest expert on this line right now is England's Grandmaster Joe Gallagher.' - Nigel Short in The Daily Telegraph

Modern Chess Openings is the best and most trusted tool for serious chess players on the market. First published over a half-century ago, this is a completely revised and updated edition of the book that has been the standard English language reference on chess openings. An invaluable resource for club and tournament players, it now includes information on recent matches and the most up-to-date theory on chess openings. Modern Chess Openings is ideal for intermediate players ready to elevate their game to the next level or International Grandmasters who want to stay on top of recent chess innovations.

A tremendously popular opening for both club players & grandmasters.

The Bishop's Opening is an ideal opening for club and tournament players as it leads to positions in which a successful outcome depends on a thorough knowledge of the important ideas for both sides rather than time-consuming theoretical preparation. This collection of fully-annotated games includes every important variation with an emphasis on currently fashionable systems of attack and defence.

A reference to every viable chess opening sequence, including dozens of variations of classic, modern, and standard openings
