in the stock market. Steve will teach you what a moving averages are and how to trade them. Not sure where to start? Are you unsure about trading the 200 day? Master moving averages This book will give you a great understanding of the power of moving averages. Easy to understand explanations of complex topics Detailed, annotated trading charts Access to a thriving trading community From the foreword: Today I am a successful and profitable stock trader and financial educator, and I can honestly tell you that I owe it all to the simple trading principles that I learned by listening to, and then reading, the first edition of "Moving Averages 101" by Steve and Holly Burns. The book taught me a new way to approach the markets. When I combined moving averages and good risk to reward setups discussed in this book, it created the potential for large wins and small losses. My trading results improved immediately. I experienced better results with less stress, because I stopped trying to predict the market or make decisions based on my opinions. Instead of worrying about what the market might do in the future, I learned to let the moving averages be my guide. I am fortunate enough to have seen Steve Burns place trades daily for the last two and a half years using the same strategies and approaches that he will teach you in this book. Steve really does practice what he preaches and teaches, and his results have been amazing. I have seen him ride profitable long-term trends to the upside, and even more impressively, stay completely in cash and out of large market drawdowns and crashes. I regularly see him make new equity highs when the market is not anywhere close to all-time highs. This second edition is great because it includes many more chart examples, which is helpful if you are a visual learner like I am. In this book, you will learn powerful concepts that if internalized and put into practice, will provide you with an approach that can make you money in the market for years to come. I feel so fortunate that I found this book back in 2016 and I would like to sincerely thank Steve and Holly Burns
