new approach of "product allocation" to the tried-and-true asset allocation approach can help protect you from the risk of outliving your savings, while maximizing your income in retirement. This book demonstrates that it isn't the investor with the most money who necessarily has the best retirement income plan. Instead, it's the investor who owns the right type of investment and insurance products, and uses product allocation to allocate the right amounts, at the right time, to each product category. This revised second edition is expanded to include
