We at JNC have been known to love the third-generation Z-car, although it ' s kind of a neglected stepchild of the line. Even Nissan themselves sometimes forgets about them. However, our ...

Vehicle maintenance.

This book documents the evolution of the Electramotive Nissan GTP car of the 1980's. It describes the methods used to turn a no-name backmarker into a multi-year IMSA GTP Champion.

When Don Devendorf and John Knepp got together to form Electramotive Engineering of El Segundo, California, little did they

Read PDF Vg30 Race Engines

realise that they were setting in motion a train of events which would sooner, rather than later, bring to them and the mighty Nissan GTP cars that they promoted, developed and raced, no less than four IMSA Camel GT Championships. Here, for the first time, is the story of Nissan in racing from 1984 to 1993, the GTP era. The full story of Electramotive and NPTI is told, with interviews with Don Devendorf, John Knepp, Geoff Brabham, Trevor Harris, Kas Kastner, Ashley Page, and many other members of the crew that won the IMSA Camel GT Championship from 1988 to 1991. The story of the European Group C Nissans, using chassis from March and Lola, from 1985 to 1992 is also told, along with interviews from many of the drivers and technicians involved, such as Mark Blundell, Julian Bailey, Dave Price and Bob Bell.

sections on theory, indepth coverage of turbocharging components, fabricating systems, engine building and testing, aftermarket options and project vehicles.

Whether youre interested in better performance on the road or extra horsepower to be a winner on the track, this book gives you the knowledge you need to get the most out of your engine and its turbocharger system. Find out what works and what doesnt, which turbo is right for your needs, and what type of set-up will give you that extra boost. Bell shows you how to select and install the right turbo, how to prep your engine, test the systems, and integrate a turbo with EFI or carbureted engine.
